

PhishNet — Maquettes Fonctionnelles

Basse fidélité

Conventions : Les maquettes représentent la structure et les interactions, pas le style graphique final. Les zones grisées indiquent des zones de contenu dynamique. Les notes signalent des points d'interaction clés.

12. AWARENESS PAGE (PUBLIC)

Écran public · Affiché après soumission de données sur la landing page d'hameçonnage

You've been phished!

This was a security awareness test organised by your company.

You just submitted your credentials on a fake login page.

In a real attack, your account could have been compromised.

Security tips:

- Always check the URL before entering your credentials.
- Be suspicious of urgent emails asking for immediate action.
- When in doubt, contact your IT department.
